This is the fourth office action for serial number 09/676,362, entitled Stable Cell Platform, in response to Amendment C filed on September 25, 2003.

Election/Restrictions

Newly submitted claims 1-6, 8-11, 14-16, and 18-21 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: the substrate-handling robot disposed on the upper mainframe to transfer a plurality of semiconductor substrates between the semiconductor substrate processing cells directs the invention to an independent or distinct from the original invention. The new limitation changes the invention from a platform for class 248 to a work holder for class 269 or robots for class 901.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 1-6, 8-11, 14-16, and 18-21 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Allowable Subject Matter

Claims 12 and 13 are allowed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
